The most widely-used skincare products by beauty salons in Japan

Dr. Recella's distinctive base ingredient "α Gri-X®"

Dr. Recella has developed "α Gri-X" in pursuit of "providing moisture to more skin, to more people", regardless of skin type, age, or gender. We have conducted research on deep sea water for more than 20 years, and tried to create an ingredient that is as close to the skin as possible.

"Every drop in the bottle is gentle on the skin."

AQUA VENUS

Aqua Venus® is a pure skincare line crafted with natural ingredients, free from fragrances and other unnecessary additives. At its core is Okinawa Deep Sea Water, α Gri-X®. This pristine water, found in the deep, tranquil ocean, remains untouched by external influences, retaining its purity and rich mineral content.
